

## 1.3.4 Environmental Policy

This company is committed to the protection of the environment in all aspects of its operations. To meet this commitment, the company shall:

- comply with all applicable laws and regulations governing the protection of the environment.
- include environmental considerations in all aspects of job planning and field activities.
- limit waste generation and recycle as required.
- ensure responsible and efficient use of energy and natural resources.
- ensure that all employees are aware of environmental concerns.
- consult with clients, regulatory agencies and outside professionals to ensure that best practices relative to environmental protection are followed.
- establish emergency response plans where such plans are required by regulation.
- report to appropriate authorities any incidents that may have a detrimental impact on the environment.

The company is committed to ongoing development and improvement of its environmental program through the development and implementation of environmental practices that will be developed as required to meet with specific concerns and local issues.

Prior to commencing any project Midwest and the client shall identify and review any environmental issues; and shall implement effective plans to ensure the environment is protected.
